

MASTERRIB XT

Designed especially for Post Frame and Animal Confinement applications, MasterRib XT (eXtra Tough) is constructed of high strength U.S. made G90 galvanized, grade 80 steel. MasterRib XT is designed for maximum strength and durability and is specified with a minimum 0.015" steel substrate, higher than most competitive 29 gauge steels. In addition, MasterRib XT uses Union's Lifetime Warranty premium SMP paint system for superior long-term chalk and fade resistance. If you want the best for your building, choose MasterRib XT.

High Strength

- Guaranteed 0.015" minimum grade 80 steel.
- 5% to 10% thicker than competitive 29 gauge steel.
- Highest resistance to damage caused by hail, impact, and foot traffic.

Corrosion Resistant

- Heavy duty G90 galvanized steel substrate.
- 25 year perforation warranty for walls.
- 20 year perforation warranty for roofs.
- 15 year edge rust warranty.

Long Lasting Colors

- Premium Siliconized Modified Polyester (SMP) paint system.
- Lifetime film integrity warranty.
- All colors Energy Star certified.
